WHAT I AM / WHAT YOUR STUDIO MAY NEED

I am an **Interdisciplinary Visual Lead**: a **CG Supervisor**, **Art Director**, **Animation Director**, and **Creative Technologist** who translates **briefs**, **storyboards**, **rhythm**, **product identity**, and **abstract messages** into **cinematic visual systems** that can move from concept to production at studio speed.

The stronger question is **what visual problem your studio needs solved**: story-to-image translation, premium CG execution, product visualization, pitch development, custom pipeline design, AI-assisted ideation, or supervision across art and technology.

17+ YEARS

Cinematic CGI, motion design, VFX and visual direction.

20+ CAMPAIGNS

Marumedia Tokyo work including CASIO / G-SHOCK and CITIZEN.

TEAMS OF 3-10

Supervised CG, rendering, compositing and motion artists.

7,200+ EDITIONS

Digital art editions sold across Ethereum and Tezos.

BEST-FIT STUDIO PATHWAYS

CREATIVE LEADERSHIP

Interpret message, rhythm, story and art direction; create visual options for directors and clients.

Possible titles: Interdisciplinary Visual Lead / Art Director / Associate Creative Director / Motion Director

CG / PRODUCTION SUPERVISION

Define CG execution; supervise artists, look development, rendering, compositing, quality control and delivery.

Possible titles: CG Supervisor / Visualization Supervisor / Look Development Lead / Product Visualization Lead

CREATIVE TECHNOLOGY / AI

Build project-specific pipelines that combine CG discipline, AI-assisted ideation, rapid visual exploration, quality control, and production-ready execution.

Possible titles: Creative Technologist / AI Workflow Lead / R&D Visual Artist / Pipeline Consultant

SELECTED PROOF OF VALUE

- **CG Supervisor** across **Marumedia Tokyo** commercial campaigns and product films involving CASIO, G-SHOCK, CITIZEN, Mitsui OSK, Nippon Steel, UD Trucks, ISUZU, YAZAKI, Lexus GT-related promotional work, SUZUKI, NIPPON STEEL, MOL, Nubia, and KOWA.
- Converted **written briefs**, **text-based & storyboards** into cinematic visual direction, shot language, product staging, lighting logic, motion rhythm and production-ready CG plans.
- Built **project-specific workflows** balancing artistic quality, speed, technical precision, client options, feedback loops and final delivery discipline.
- **Developing research-informed visual frameworks** that connect art, spatial reasoning, procedural play, and mathematical thinking - strengthening my ability to translate complex ideas into clear visual systems.

FEATURED CAMPAIGN RANGE

HERO EVENT / PRODUCT STORYTELLING

G-SHOCK 40th Anniversary - U.S. Event Main Video

CG Supervisor / Main Video Creator. Translated the celebration brief and sketch direction into cinematic product storytelling; defined visual rhythm, shot flow, product emphasis, material/light direction, render quality and final polish.

LUXURY PRODUCT / MACRO DETAIL

CITIZEN Series 8 Mechanical

CG Supervisor. Developed premium macro visualization for a luxury mechanical timepiece; supervised look development, metal and glass materials, lighting, camera timing and cinematic product presentation.

AUTOMOTIVE / PERFORMANCE BRAND FILM

Anest Iwata / Lexus GT Motorsport Promotional Film

CG Supervisor. Supervised CG production for an Anest Iwata-sponsored Lexus GT racing promotional film; directed shot execution, vehicle animation, lighting, rendering, compositing, and final visual consistency.

INDUSTRIAL COMMUNICATION / ENGINEERING PRECISION

Nippon Steel Engineering DX Corporate Video

CG Supervisor. Directed the visualization of advanced industrial manufacturing through cinematic CG; designed clear visual communication for large-scale steel production, material quality, and engineering precision.

PROFESSIONAL EXPERIENCE

Marumedia - Tokyo, Japan CG Supervisor & Visual Effects Lead 2023-Present	- Supervised 20+ commercial CGI, motion and product visualization campaigns with teams of 3-10 artists, depending on project scope. Led CG execution across high-precision Japanese commercial work where technical accuracy, design discipline, material fidelity, timing, and polish are critical. - Translated text briefs, director notes and written storyboards into visual treatment, shot order, camera logic, product reveal, rhythm and production execution. - Structured artist tasks, feedback loops, render priorities, visual revisions and final delivery requirements across fast-moving commercial timelines. Selected projects: G-SHOCK 40th Anniversary, CITIZEN Series 8, CASIO CA-500, G-SHOCK GW-5000, CASIO Edifice Carbon Edition, CASIO GA01, Mitsui OSK COP28, Nippon Steel Engineering DX Corporate Video, UD Trucks, YAZAKI, ISUZU, Nubia Flip Phone, KOWA.
D3Canvas Studio - Yerevan, Armenia Founder / Director / Production Manager 2019-Present	Founded and lead a multidisciplinary CGI and animation studio; direct art direction, client communication, team coordination, production supervision, rendering workflow design, commercial CGI, product visualization and cinematic branding. Film/VFX credits include VFX Supervisor roles on RaH (2024) and Barun Rai and the House on the Cliff (2021).
Dreamfarm Studio Render Supervisor / Art Director / Composite Supervisor 2018-2019	Managed rendering pipelines, compositing supervision, visual quality control and art direction for commercial and broadcast production.
Health Channel Art Group Animation Director & Art Group Leader 2016-2020	Directed animation productions and supervised creative teams across television, broadcast and motion graphics workflows.
Grid3D / PAG / Freelance International Production CG / Motion / VFX Leadership 2004-Present	Led and produced motion design, broadcast design, product visualization, VFX, promotional films, commercial animation, and international CGI projects across Asia, Europe, the Middle East, and North America.

RESEARCH, ART, TECHNOLOGY AND AI

RESEARCH-TO-STUDIO VALUE My research practice strengthens my ability to analyze visual meaning, design systems of interpretation, and convert complex ideas into structured visual experiences. This directly supports studio work where abstract messages must become clear visual direction, storyboard logic, and production pathways.	AI WORKFLOW VALUE I use AI for concept exploration, styleframes, pitch acceleration and visual options while maintaining authorship, CG supervision and production control. Hands-on workflow experience includes ComfyUI, controlled image/video generation and AI-to-CG pipeline thinking.
---	--

CORE CAPABILITIES

VISUAL LEADERSHIP Art direction; cinematic composition; rhythm; visual narrative; storyboard interpretation; client option design; visual message design.	CG / VFX PRODUCTION CG supervision; film VFX supervision; look development; lighting; shading; rendering; compositing; product animation; motion graphics; pipeline optimization.	SOFTWARE / ENGINES Cinema 4D; HoudiniFX; Maya; Unreal Engine; NukeX; After Effects; Premiere Pro; Redshift; Octane; Arnold; V-Ray; Substance 3D Painter; ZBrush; Three.js.
---	---	--

FILM / VFX / RECOGNITION / CLOSING

FILM / VFX / DIRECTING VFX Supervisor: RaH (2024); Barun Rai and the House on the Cliff (2021). Short film direction: NOMAD and Imperfect Abortion — international festival selections/recognitions, strengthening narrative timing and cinematic authorship.	RECOGNITION / EDUCATION 7,200+ digital art editions sold; international film festival selections; Arts in Society presenter; ARETL international conference presenter. Advanced Diploma in Professional Animation Direction & Supervision; traditional drawing, oil painting, professional photography, and music/rhythm literacy.	STRATEGIC CLOSE I work best where story, design, CG execution, client communication, and emerging technology intersect. Give me a brief, storyboard, product challenge, or unresolved visual message, and I can turn it into clear visual options, a sharper creative direction, and a production-ready execution path.
